

What is the value of the charter fishing sector to the WA economy?

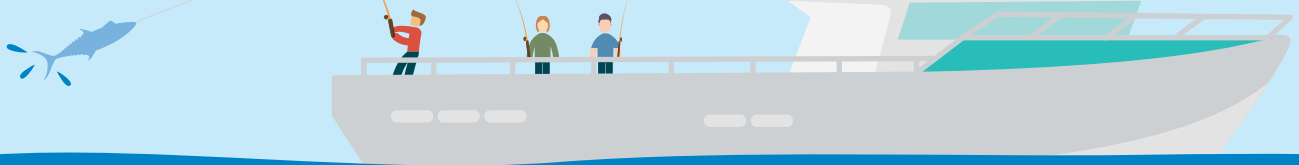

WA's charter fishing sector gives the opportunity to people who love fishing to sample the State's best boat fishing experiences safely and easily under the guidance of fishing experts. The sector also helps support regional tourism with many fishers planning their holidays around a charter fishing trip.

The charter fishing sector generates **\$110.9 MILLION**

in direct and indirect expenditure &

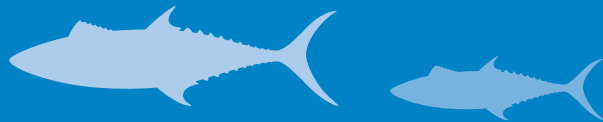

831 Jobs Every Year

The net value of each fish caught and kept is at least **\$488 per fish!**

There is a high correlation between the **species targeted and the species caught**

92% of charter fishing clients already hold a **Recreational Fishing from a Boat Licence**

7,843
